FROM WASHINGTON.

Washington, December 21, 1876. OREGON'S SENSATIONAL ELECTOR.

Cronin, the self-assumed Oregon elector arrived here this morning, but up to the time of the adjournment of the Senate be had not attempted to file the certificate brought hither by him. This afternoon he was on the floor of the House, and was introduced to the Democratic members by Mr. Luttrell, of California. He looks to be about thirty-five years of ago, about five feet eight inches in height, and is of magnificent muscular physique, He has piercing black eyes, wears a heavy black moustache, but otherwise is clean-shaven. His hair is inclined to curl, and is as black as a raven. It is when one comes to look him square in the face that he has the appearance of a "broth of a boy." All his other attractions fade sway when his features are scanned. His face is as red as a Pennsylvania baru in a new coat of paint. His friends say that he has not touched liquor for eight years, but his frontispiece betokens that he has not yet gotten over the last time.

Mr. Cronin will make no statements to newspaper interviewers. He says in re-fraining therefrom he is acting under advice. It is understood that he will present the electoral certificate to-morrow, and will receive the regular form of receipt adopted to Baltimore American.

THE METRIC SYSTEM.

Mr. Kasson, of Iowa, made a move in the House to-day looking to the recognition of the metric system in the regulation of the weight of the matter passing through the mails.—Ib.

THE GOVERNMENT AND SOUTH CAROLINA. While the Government has been kept informed by telegrams from officials in South Carolina and from other sources of the progress of events in that State, there have not been any recent advices which in the opinion of the Cabinet or War Department authorities call for any extra exertions towards the preservation of peace. It is the opinion of military officers here that the force at Columbia is sufficient to prevent a struggle, and at the same time the burden of the telegrams received through official sources do not indicate that any outbreak is now probable. What may occur on the reassembling of the Legislatures after the new year is only a matter of conjecture.- Ib.

THE TEXAS PACTFIC RAILROAD. It now looks as if the Texas Pacific railroad scheme will be passed at the present session. At a meeting of the House Committee on Pacific Railroads to-day a subcommittee of five was appointed to report a announcing that if this too is disobeyed he bill looking to this end on the 4th of Janu- will bring the whole land and naval force of ary. The indications are that there will be a compromise between the heretofore existing corporation, and that the Central Pacific Railroad Company will build the road from the Colorado river to San Francisco, and Colonel Thomas A. Scott from the Colorado river east.-1b. A CHANCE FOR THE ALARMISTS.

General George B. McClellan was on the floor of the House to-day and had a long conference with General Banning. Those invincible patriots who want "wah" will perhaps construe this visit of "Little Mac" at this time as ominous.—Ib. GOVERNOR WALKER'S BILL.

GENERAL BUTLER'S PROPOSITION.

General B. F. Butler, who has been in the city for a day or two, was at the Treasury Department yesterday, and while there, in conversation concerning the presidential trouble, stated that he did not believe it possible for any compromise of the question to be effected. He said that there had been so much taint attaching to the legality of the proceedings in several of the States connected with the late presidential contest that in his judgment it will be impracticable for either party to purge itself of the wrongs alleged against it so as to satisfy the great mass of the American people, who are anxious to see the right prevail in the contest. Neither party would be content to believe by any possible showing that the other is not entirely in fault for the present

condition of affairs. The General suggests that Congress go to work at once and pass a special election-law calling for a new election to take place, say in May next, and have such safeguards thrown around the election at all points as to preclude the chance of unfairness or fraud either of registration or of subsequent canvass of the votes, and in that way honestly endeavor to have a free expression of the will of the majority, and have that expression carried into effect by the inauguration of the presidential candidate so chosen,

be made on either side till after the holidays. It is reported that the Republican with gray, straight and long, clinging to programme as to counting the vote has been modified, and that it will be held that straight and refined, his eyes deep-set and while the Vice-President may rightly count | melancholy-his whole expression melanand declare the votes, if objection is made choly and intellectual. to the vote of any State, he must submit it himself. If Florida and Louislana, or both, should turn out to be rightly Democratic, an attempt will be made by the Republicans to throw out the votes of Alabama and Mississippi, and thus throw the election into the House, which would of the disputed States, and, mean time, more entertainments, and gives warning that they and more Republicans undoubsedly waver, and the question which begins now to be privately discussed is, Who will lead in a break from the straight line of extreme

partisanship? ""SELLING OUT RENBRICES."

Within the last few days there have been rumors floating around in political circles that the friends of Governor Hendricks were very much excited and disturbed over what they regarded as indications of a disposition on the part of the New York Democratic politicians to "sell out," Hendricks if thereby they can secure Tilden. These rumors are very willely circulated, and there are Democratic members of both houses who believe there is foundation for them .- Special to Baltimore Sun.

THE SPY SYSTEM AGAIN. It has come to light to-day that the Administration has established a system of espionage embracing the whole country, by Mr. Ferry to give all messengers; and and whereby it expects to obtain early inthat is that the documents received claim to formation of the movements and the utterbe the votes of the several States .- Special ances of prominent Democrats in every corner of the land. Included in the vast detective corps set to work to spy upon the people who are taxed for their support are understood to be all the special agents of the Post-Office and Treasury Departments, and, where they will consent to undertake such work, the country postmasters. A denial of this statement may be expected from interested quarters, but it is absolutely true nevertheless .- 16.

[Special dispatch to the Baltimore Sun.] The Outlook in South Carolina.

COLUMBIA, S. C., December 21.-Chamberlain's new programme, it is said, is to issue a proclamation on Monday for Hampton and Simpson and the constitutional House to disband within three days. If his proclamation is not obeyed, Chamberlain, it is claimed, has the assurance from the majority of the Cabinet and from Grant himself that the President will follow it up with a similar proclamation immediately, the United States, if necessary, to "crush the insurgents"-in short, Chamberlain and Grant intend to carry out exactly the Packet, 12% par, 6 bid, 9 asked. same programmethey did with reference to the rifle clubs. An Amusing Scene in Court. A MAN WHO WANTED TO GO TO THE PENITEN-

One of the most amusing scenes ever witnessed in the Criminal Court of this city occurred to-day during the trial of an eccentric individual who calls himself "Brother Paul." The accused was charged with stealing an overcoat. When he was placed selves of the holidays to visit their homes. at the bar to-day he proceeded to explain RICHMOND TOBACCO EXCHANGE that he had not stolen the coat for his own The Chair appointed Mr. Johnston, of use, but for a purpose. When he took the stand in his own defence instead of swearing, he affirmed in the most formal and solemn manner. He said he came from western New York, and arrived in Baltimore about two months ago on his way to New Orleans. He started to walk this distance, but upon reaching the vicinity of Baltimore county his health would not permit him to go any further. Being sick and poor he thought he would go to prison to recover his health. It seemed to him a little rest would do his health good, so he consulted Justice Graff, and he sent him to CINCINNATI.

He was disappointed in the accomodations at the jail, and not liking the apartments he again went to see Justice Graff when he got out, for the purpose of ascertaining how much he must steal in order to go to the penitentiary. He was told that the larceny of property valued at more than five dollars would insure his sentence to this institution. So in order not to get a sentence too long he stole the sentence are the contract of the contract sentence too long he stole the coat, which was marked six dollars, one dollar above

the sum named as the minimum amount. He had changed his mind, however, he said, since awaiting trial in jail, for the apartments he then occupied he thought would suit him better than those in the penitentiary, and he would ask the Court to sentence him to jail instead of the penitentiary. During this recital the spectators frequently burst into laughter. As the arti-

Report says that a senator, one of the most vigorous and extreme on the Republican side, said on Wednesday that he would not be content to accept anything less than Tilden and Wheeler, and politicians of both sides who are in a position to know what is doing, and what is looked for in the highest party quarters, privately prophecy, with apparently a good deal of confidence, that this will be the successful ticket. The steamers from the lower Bay ports report heavy drift ice in the Bay, which commences at Seven-Foot Knoll, and its very bad as far down as Sharp's Island. It is driven to the western side of the Bay by the prevalling easterly winds, and is forming small icebergs, which are very dangerous to encounter. This is particularly the case at the mouth of the Palapseo and the Magothy rivers, where the ice is piled up. A channel broken through it fills up at once, and half an hour after the passage of one vessel it is impassable for another. If very cold weather should follow navigation would be effectually closed.
